mooreVIEW — ALF / Living Campus Business Plan

Institutional MEP · 60 campuses · ~1,500 assets/campus · \$110/asset · 55% net profit · 2026

Document version: 1.1 · 2026-08-13

A company powered by The Purple Standard · purple-standard.com

Executive summary

mooreVIEW Living Campus targets **multi-site ALF / assisted-living operators** with **~1,500 billable monitored assets per campus** (leak circuits, HVAC zones, cold chain, DHW, generator, pool/mechanical, room/floor rollups) — **MVP Suite on-prem** (~4,500 technical tags/campus) and **Phase 1 → Phase 2 Cloud SaaS** for portfolio fleet view via **site-agent rollout sync**.

Metric	Year 1	Year 2	Year 3
New campuses	12	24	24
Cumulative campuses	12	36	60
Billable assets (EOY)	~18,000	~54,000	~90,000
Total revenue	~\$14.9M	~\$51.5M	~\$99M
Total cost (45%)	~\$6.7M	~\$23.2M	~\$44.6M
Net profit (55%)	~\$8.2M	~\$28.3M	~\$54.5M
End-of-year renewal ARR	~\$23.8M	~\$71.3M	~\$118.8M

Customer pricing: \$110 / monitored asset / month × ~1,500 assets → \$165,000 / campus / month · \$165,000 one-time commissioning per campus.

Target margin: 55% net profit (45% all-in cost: install COGS, cloud, 7% OH Y2+, support at scale, sales, platform).

System impact @ 60 campuses: ~270,000 on-prem tags · ~48,000 – 72,000 cloud rollout tags · Phase 1 exceeded at ~24+ campuses — plan tenant shard or Phase 2 SaaS (16 GB × 2) + Mongo 50 – 250 GB before full 60. Do not full-mirror 4,500 tags/campus into one tenant.

Part 1 — Market & product

Scope

Layer	Role
Edge (each campus)	MVP Suite Heavy — ~4,500 tags, ~1,500 billable assets, cameras, 13 mo local historian

Cloud (portfolio)	SaaS :3100 — site agent, fleet map, rollup alarms (not 1:1 asset mirror)
Project	assisted-living / Living Campus .est (scaled template)

Asset vs tag

	Count / campus	Purpose
Billable asset	~ 1,500	Customer contract unit (\$110/mo each) — leak nodes, RTU zones, walk-ins, genset, floor summaries
Technical tag	~ 4,500	MVP Suite TagStore (~3 tags/asset avg — state, alarm, trend pen)
Cloud rollup pen	~ 800 – 1,200	Fleet dashboard — building/system rollups only

Buyer

Buyer	Scale
Regional ALF operator	5–60 campuses · 750K – 4.5M billable assets at full fleet
PE-backed senior living	Portfolio Parc · single operator tenant or per-campus org (model C)

Part 2 — Pricing model (\$110 / asset × ~1,500)

Fleet default (planning)

Term	Value
Assets / campus (avg)	~ 1,500
Rate	\$110 / asset / mo
Campus recurring	\$165,000 / mo
Campus one-time	\$165,000
Tags / campus (technical)	~ 4,500 on MVP Suite

Campus profile mix (60-site fleet)

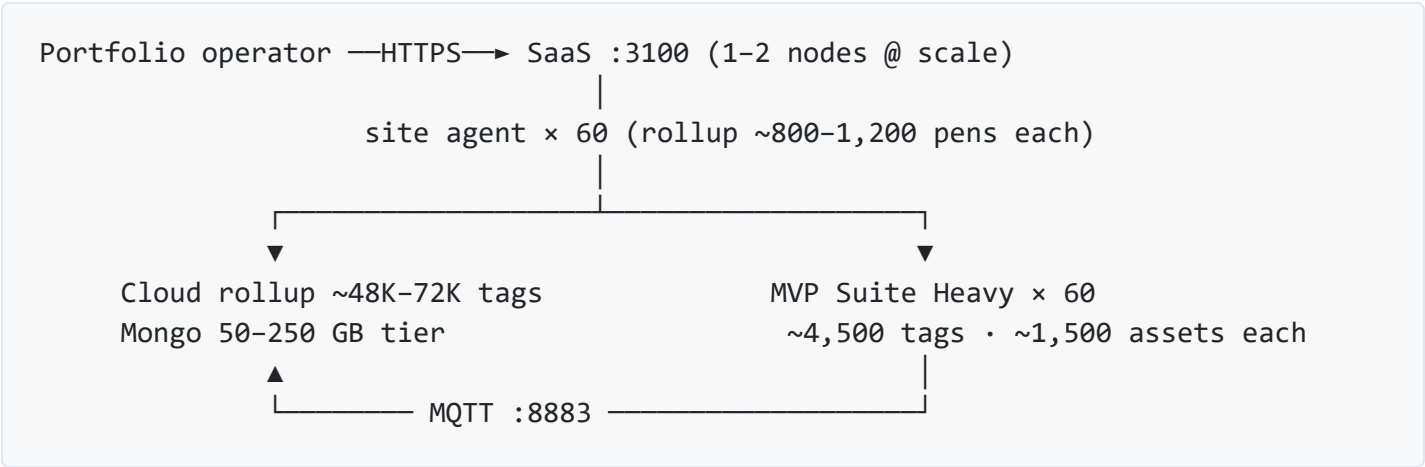

Profile	Share	Assets	Recurring/mo	One-time
Small (1 bldg)	20%	~900	\$99,000	\$99,000
Standard (2–3 bldg)	55%	~ 1,500	\$165,000	\$165,000

Large (4+ bldg)	25%	~2,200	\$242,000	\$242,000
Fleet weighted avg	100%	~1,500	~\$165,000	~\$165,000

Comparison to list MSRP

Model	Per campus / mo	Notes
Pricing Guide standard campus	\$833	Entry MSRP · few hundred I/O
This plan (1,500 × \$110)	\$165,000	Full-campus leak + MEP + cold + gen @ asset granularity

Part 3 — Cloud deployment & scaling path

Stage	Campuses	Cloud rollup tags	Infrastructure
Phase 1 OK	1 – 12	~14,400	4 GB SaaS · 15 GB Mongo · MAX_TAGS=65536
Phase 1 stretch	13 – 24	~28,800	8 GB SaaS · archive expand
Phase 2 required	25 – 60	~48,000 – 72,000	2× 16 GB SaaS or tenant shard · Mongo 50 – 250 GB
Full mirror (avoid)	18+	>270,000	Off Phase 1 — VM split / per-campus tenant

Recommended sync: Model B — rollup ~800 pens/campus (not 1,500) for fleet alarms/trends. **Model C** — per-campus tenant (4,500 tags each) + partner portfolio UI if operator requires asset-level cloud visibility.

Part 4 — Financial model (60 campuses / 3 years)

Ramp

12 + 24 + 24 = 60 campuses over 3 years · ~1,500 assets each · \$110/asset/mo.

Revenue

Metric	Year 1	Year 2	Year 3
New campuses	12	24	24
Cumulative (EOY)	12	36	60
New assets (approx.)	~18,000	~36,000	~36,000
One-time (\$165K × new)	\$1.98M	\$3.96M	\$3.96M
Renewal (ramped campus-months × \$165K)	\$12.87M	\$47.52M	\$95.04M
Total revenue	~\$14.9M	~\$51.5M	~\$99M
Renewal ARR (EOY run-rate)	~\$23.8M	~\$71.3M	~\$118.8M

Y1 renewal: 78 campus-months (1+2+...+12) × \$165,000. Y2: 12 full-year + 24 half-year campuses. Y3: 36 full-year + 24 half-year.

Cost structure (45% → 55% net profit)

Cost line	Y1	Y2	Y3	Y3 % rev
Install hardware COGS (~35% of one-time)	\$693K	\$1.39M	\$1.39M	1.4%
Install labor (~\$25K/campus × new)	\$300K	\$600K	\$600K	0.6%
Cloud + cellular (Phase 1 → 2)	\$80K	\$350K	\$650K	0.7%
Overhead (7% of revenue)	\$1.04M	\$3.60M	\$6.93M	7.0%
Customer success & L2 (~11%)	\$1.64M	\$5.66M	\$10.9M	11.0%
Sales & commission (~8%)	\$1.19M	\$4.12M	\$7.92M	8.0%
Platform / R&D (~5%)	\$745K	\$2.57M	\$4.95M	5.0%
Warranty, spares, G&A (~5%)	\$1.20M	\$4.96M	~11.2M	~11.3%
Total cost	~\$6.7M	~\$23.2M	~\$44.6M	~45%
Net profit (55%)	~\$8.2M	~\$28.3M	~\$54.5M	~55%

Y1 also tracks **\$3/device/mo OH** on billable assets during launch (~\$351K embedded in support/OH blend). At 1,500 assets/campus, per-device Y1 OH ≈ **\$4,500/mo/campus** at EOY — transitions to **7% of total revenue** in Y2+ per portfolio OH policy.

Per-campus unit economics (Y3 steady state)

	Per campus / mo	Per campus / yr
--	-----------------	-----------------

Revenue (1,500 × \$110)	\$165,000	\$1,980,000
Total cost (45%)	\$74,250	\$891,000
Net profit (55%)	\$90,750	\$1,089,000

3-year totals

	Cumulative
Revenue	~\$165M
Net profit (55%)	~\$91M
Campuses	60
Billable assets deployed	~90,000
On-prem tags	~270,000

Part 5 — System impact @ 60 campuses × ~1,500 assets

Load summary

Resource	Per campus	@ 60 campuses	Limit / action
Billable assets	~1,500	~90,000	Contract/pricing unit
On-prem tags (MVP Suite)	~4,500	~270,000	Heavy appliance 32 GB / 512 GB
Cloud rollup tags	~800 – 1,200	~48K – 72K	Phase 2 · shard or MAX_TAGS=131072
Full cloud mirror	~4,500	~270,000	Not on Phase 1
Site-agent MQTT	1	60	OK on Phase 1 MQTT
Cloud ingest (rollup)	~80 – 150 MB/mo	~5 – 9 GB/mo	Mongo tier step @ Y2
Hot Mongo (7 d)	~40 – 80 MB	~2 – 5 GB	OK → 50 GB tier Y2

Edge fleet @ 60 campuses (Heavy profile)

Resource	Per campus	Fleet total
MVP Suite RAM	32 GB	~1.9 TB
Local SSD	512 GB	~30 TB
On-prem tags	~4,500	~270,000
Commissioning touchpoints	~1,500 assets	~90,000

Sizing rule: At ~1,500 assets, use **Heavy** MVP Suite (16 GB+ RAM, 512 GB SSD minimum; **32 GB** recommended for vision AI + 13 mo historian + full leak matrix).

Cloud opex @ 60 campuses (Phase 2 planning)

Line	Monthly (Y3)	Annual	% of \$9.9M/mo renewal
SaaS 2× 16 GB nodes	~\$160	~\$1,920	0.002%
Mongo 50 – 250 GB tier	~\$400 – 800	~\$4.8 – 9.6K	0.05%
MQTT + archive (Phase 1+)	~\$200	~\$2,400	0.002%
Cellular — 60 site agents (\$7)	\$420	\$5,040	0.004%
Total cloud/cell	~\$1,200 – 1,600	~\$14 – 19K	~0.02%

Cloud remains <1% of renewal even at 1,500 assets/campus — edge hardware, install labor, and L2 support dominate the 45% cost stack.

Ramp — when Phase 1 breaks

EOY year	Campuses	Assets	Cloud rollup tags	Action
Y1	12	~18,000	~14,400	Phase 1 · 8 GB SaaS
Y2	36	~54,000	~43,200	Mongo 50 GB · evaluate shard
Y3	60	~90,000	~48K – 72K	Phase 2 SaaS · partner tenant model if needed

At ~800 rollup pens/campus, Phase 1 tag cap (70,912) is exceeded between campus 24 – 30 — plan Phase 2 before Y2 end.

Coexistence with wastewater (500 devices) on shared cloud

Load	ALF 60 (1,500 assets)	WW 500	Combined
Cloud tags (rollup)	~48K – 72K	~7K	~55K – 79K
Hot Mongo	~2 – 5 GB	~6.5 GB	~8 – 12 GB
MQTT	60	532	~592 OK
Verdict	Phase 2 required	Phase 1 OK alone	Dedicated ALF SaaS node recommended

Part 6 — Go-to-market

Phase	Campuses	Assets (cum.)	Focus
-------	----------	---------------	-------

Y1	12	~18K	Pilot 2 campuses @ full 1,500 · prove 55% margin · Heavy appliance BOM
Y2	36	~54K	Regional MSA · \$110/asset schedule · Phase 2 cloud cutover
Y3	60	~90K	National portfolio · tenant shard · FM partner L2 bench

Sales line: 1,500 monitored assets per campus — survey-ready MEP at **\$110/asset**, not clinical per-resident pricing.

Part 7 — Risks & mitigations

Risk	Mitigation
Phase 1 tag cap @ 24+ campuses	Rollup-only (~800 pens) or per-campus tenant
Support cost vs 55% margin	Tier L2 per 1,500 assets in contract; FM partner delivery
Appliance undersized for 4,500 tags	32 GB / 512 GB Heavy minimum
90K asset commissioning backlog	Phased floors · template clone · partner install crews
Confusion with eMAR / \$/resident clinical pricing	Facilities/MEP assets only — separate SKU from clinical software

Appendix — assumptions

Item	Value
Campuses	60 over 3 years (12 + 24 + 24)
Assets / campus	~1,500 (billable)
Tags / campus	~4,500 (technical, ~3 tags/asset)
Customer price	\$110 / asset / mo
Campus recurring	\$165,000 / mo
Net profit target	55%
OH	\$3/device/mo Y1 · 7% of revenue Y2+
Cloud sync	Rollup ~800 – 1,200 pens/campus
Edge profile	MVP Suite Heavy 32 GB / 512 GB

Disclaimer: Directional enterprise model — not a forecast, quote, or SLA.
