mooreVIEW — Hotel / Motel Business Plan

Institutional MEP · small operator · 12 properties · ~1,500 assets/property · \$110/asset · 55% net profit · 2026

Document version: 1.0 · 2026-08-13

A company powered by The Purple Standard · purple-standard.com

Executive summary

mooreVIEW **Living Hospitality** targets **small regional hotel and motel operators** (family chains, franchisee groups, **6–15 properties**) with **~1,500 billable monitored assets per property** (guest-room HVAC zones, kitchen walk-ins, laundry, pool/spa, boiler/DHW, genset, ice machines, elevator, back-of-house MEP) — **MVP Suite on-prem** (~4,500 technical tags/property) and **Phase 1 Cloud SaaS** for portfolio fleet view via **site-agent rollup sync**.

Metric	Year 1	Year 2	Year 3
New properties	2	5	5
Cumulative properties	2	7	12
Billable assets (EOY)	~3,000	~10,500	~18,000
Total revenue	~\$825K	~\$7.3M	~\$17.2M
Total cost (45%)	~\$371K	~\$3.3M	~\$7.7M
Net profit (55%)	~\$454K	~\$4.0M	~\$9.5M
End-of-year renewal ARR	~\$4.0M	~\$13.9M	~\$23.8M

Customer pricing: \$110 / monitored asset / month × ~1,500 assets → \$165,000 / property / month · \$165,000 one-time commissioning per property.

Target margin: 55% net profit (45% all-in cost: install COGS, cloud, 7% OH Y2+, support, sales, platform).

System impact @ 12 properties: ~54,000 on-prem tags · ~9,600 – 14,400 cloud rollup tags · Phase 1 OK on single stack. **Do not** full-mirror 4,500 tags/property into one tenant.

Part 1 — Market & product

Scope

Layer	Role
-------	------

Edge (each property)	MVP Suite Heavy — ~4,500 tags, ~1,500 billable assets, cameras, 13 mo local historian
Cloud (portfolio)	SaaS :3100 — site agent, fleet map, rollup alarms (property/system — not every guest room mirror)
Project	hospitality / Living Hospitality .est (select-service + extended-stay templates)

Asset vs tag

	Count / property	Purpose
Billable asset	~1,500	Contract unit (\$110/mo) — PTAC/VTAC zones, walk-ins, boiler, laundry extract, pool, genset, ice, elevator summary
Technical tag	~4,500	MVP Suite TagStore (~3 tags/asset)
Cloud rollup pen	~800 – 1,200	Portfolio dashboard — building/plant rollups only

Buyer — small operator profile

Buyer	Scale
Regional hotel/motel owner	6 – 15 properties · 9K – 22K billable assets at full fleet
Franchisee (2–3 brands)	Single tenant · model B rollup · brand-mandated PM evidence

Note: Select-service and full-service properties at ~1,500 assets; economy motels in fleet mix may run ~900 assets at \$99K/mo — weighted fleet still plans at ~1,500 for mid-scale properties.

Part 2 — Pricing model (\$110 / asset × ~1,500)

Property default (planning)

Term	Value
Assets / property (avg)	~1,500
Rate	\$110 / asset / mo
Property recurring	\$165,000 / mo
Property one-time	\$165,000
Tags / property (technical)	~4,500 on MVP Suite

Property profile mix (12-property fleet)

Profile	Share	Keys	Assets	Recurring/mo	One-time
Economy motel (1–2 story)	40%	~60	~900	\$99,000	\$99,000
Select-service hotel	45%	~120	~1,500	\$165,000	\$165,000
Full-service / resort	15%	~200+	~2,200	\$242,000	\$242,000
Fleet weighted avg	100%	~110	~1,500	~\$165,000	~\$165,000

Comparison to legacy spend

Model	Per property / mo	Notes
BMS + kitchen PM + pool vendor (reactive)	\$6K – \$18K	Guest-event driven truck rolls
mooreVIEW (1,500 × \$110)	\$165,000	Full-property proactive MEP + CMMS + brand audit trail

Positioning: Avoids **guest comfort events, walk-in failures, and pool health-department hits** — priced as **asset monitoring**, not per-key franchise fees.

Part 3 — Cloud deployment & scaling path

Stage	Properties	Cloud rollup tags	Infrastructure
Phase 1 OK	1 – 12	~9,600 – 14,400	4 GB SaaS · 15 GB Mongo · MAX_TAGS=65536
Growth path	13 – 25	~20K – 30K	8 GB SaaS

Full mirror (avoid)	5+	>54,000	Off Phase 1 — per-property tenant
---------------------	----	---------	-----------------------------------

Recommended sync: Model B — rollup ~800 pens/property. **Model C** — per-property tenant for multi-brand franchisee orgs.

Part 4 — Financial model (12 properties / 3 years)

Ramp

2 + 5 + 5 = 12 properties over 3 years · ~1,500 assets each · \$110/asset/mo.

Revenue

Metric	Year 1	Year 2	Year 3
New properties	2	5	5
Cumulative (EOY)	2	7	12
New assets (approx.)	~3,000	~7,500	~7,500
One-time (\$165K × new)	\$330K	\$825K	\$825K
Renewal (ramped property-months × \$165K)	\$495K	\$6.44M	\$16.34M
Total revenue	~\$825K	~\$7.3M	~\$17.2M
Renewal ARR (EOY run-rate)	~\$4.0M	~\$13.9M	~\$23.8M

Y1 renewal: 3 property-months (1+2) × \$165,000. Y2: 2 full-year + 5 ramped (39 property-months). Y3: 7 full-year + 5 ramped (99 property-months).

Cost structure (45% → 55% net profit)

Cost line	Y1	Y2	Y3	Y3 % rev
Install hardware COGS (~35% of one-time)	\$116K	\$289K	\$289K	1.7%
Install labor (~\$25K/property × new)	\$50K	\$125K	\$125K	0.7%
Cloud + cellular (Phase 1)	\$15K	\$45K	\$70K	0.4%
Overhead (7% of revenue)	\$58K	\$511K	\$1.20M	7.0%
Customer success & L2 (~11%)	\$91K	\$803K	\$1.89M	11.0%
Sales & commission (~8%)	\$66K	\$584K	\$1.38M	8.0%
Platform / R&D (~5%)	\$41K	\$365K	\$860K	5.0%
Warranty, spares, G&A (~5%)	\$44K	\$553K	~1.59M	~9.2%

Total cost	~\$371K	~\$3.3M	~\$7.7M	~45%
Net profit (55%)	~\$454K	~\$4.0M	~\$9.5M	~55%

Per-property unit economics (Y3 steady state)

	Per property / mo	Per property / yr
Revenue (1,500 × \$110)	\$165,000	\$1,980,000
Total cost (45%)	\$74,250	\$891,000
Net profit (55%)	\$90,750	\$1,089,000

3-year totals

	Cumulative
Revenue	~\$25.2M
Net profit (55%)	~\$13.9M
Properties	12
Billable assets deployed	~18,000
On-prem tags	~54,000

Part 5 — System impact @ 12 properties × ~1,500 assets

Load summary

Resource	Per property	@ 12 properties	Limit / action
Billable assets	~1,500	~18,000	Contract/pricing unit
On-prem tags (MVP Suite)	~4,500	~54,000	Heavy appliance 32 GB / 512 GB
Cloud rollup tags	~800 – 1,200	~9.6K – 14.4K	Phase 1 OK
Full cloud mirror	~4,500	~54,000	Not on Phase 1
Site-agent MQTT	1	12	OK on Phase 1 MQTT
Cloud ingest (rollup)	~80 – 150 MB/mo	~1 – 1.8 GB/mo	Mongo 15 GB OK
Hot Mongo (7 d)	~40 – 80 MB	~0.5 – 1 GB	OK

Edge fleet @ 12 properties (Heavy profile)

Resource	Per property	Fleet total
MVP Suite RAM	32 GB	~384 GB
Local SSD	512 GB	~6 TB
Commissioning touchpoints	~1,500 assets	~18,000

Cloud opex @ 12 properties (Phase 1)

Line	Monthly (Y3)	Annual	% of \$1.98M/mo renewal
SaaS 4 – 8 GB	~\$24 – 48	~\$288 – 576	0.002%
Mongo 15 GB	~\$75	~\$900	0.004%
MQTT + archive	~\$97	~\$1,164	0.005%
Cellular — 12 site agents (\$7)	\$84	\$1,008	0.004%
Total cloud/cell	~\$280 – 304	~\$3.4 – 3.6K	~0.015%

Cloud remains <<1% of renewal — kitchen cold chain, guest-room HVAC matrix, and L2 support dominate the 45% cost stack.

Part 6 — Go-to-market

Phase	Properties	Assets (cum.)	Focus
Y1	2	~3K	Pilot 1 select-service + 1 motel · prove 55% margin
Y2	7	~10.5K	Regional MSA · brand PM compliance export
Y3	12	~18K	Second operator logo · franchisee reference

Sales line: 1,500 monitored assets per property — proactive MEP at **\$110/asset**, not per-key PMS pricing.

Part 7 — Risks & mitigations

Risk	Mitigation
Franchise brand IT friction	Model C per-property tenant + partner portfolio view
Guest comfort vs asset scope	Contract covers MEP assets — not PMS or door locks
Motel asset count lower than 1,500	Profile mix table · economy tier at ~900 assets

Seasonal occupancy	Assets are always-on plant — not occupancy-metered
--------------------	---

Appendix — assumptions

Item	Value
Properties	12 over 3 years (2 + 5 + 5) — small operator
Assets / property	~1,500 (billable; motels ~900 in mix)
Tags / property	~4,500 (technical)
Customer price	\$110 / asset / mo
Property recurring	\$165,000 / mo
Net profit target	55%
OH	\$3/device/mo Y1 · 7% of revenue Y2+
Cloud sync	Rollup ~800 – 1,200 pens/property
Edge profile	MVP Suite Heavy 32 GB / 512 GB

Disclaimer: Directional model for small hospitality operators — not a forecast, quote, or SLA.
